

**Auxiliary profile**

1	Work surface 50 mm
2	Screw lips for additional structures & double support structures
3	Visual centre line
4	Zone for connector / spacer
6	Screw direction

The BFP-310 auxiliary profile is a general-purpose structural profile designed to create **various vertical and horizontal intermediate connections** in combination with other profiles. This profile can be connected to standard **connectors / spacers (BFA-501)**. This profile is available in standard lengths or cut to size, pre-anodized black or raw. Possible dimensions and options are detailed further in this manual.
